MISS LILLIE B. MOORE
Dallas, Texas.

This is to certify that Miss Lillie B. Moore has studied music with the violin with Prof. S. B. Walton, Dallas' most noteworthy musician, a man whose musical education bears high musicianship. Prof. S. B. Walton studied music in Chicago at the Campbell Conservatory with the most eminent teachers and experts of music. He also specialized in all kinds of musical instruments, Band and Orchestra, Piano and Voice, Composition and Harmony.

Miss Lillie B. Moore studied one year and seven months, and finished the entire school of the most up-to-date course in Violin Music. The five books by Christian Heinrich Bionnann, with text in German and English revised by Dr. Thos. Baker, in Schirmer's Library of Musical Classics.

Miss Moore also completed all positions most used, from one to seven, by Moritz Bohler, book one and two, op. 51 and scale book studies book one and two, by H. Stradwick, op. 50. The techniques of bowing, op. 50, by A. Casarini, and others not mentioned here.

Miss Moore's musical studies have been carefully selected for a thorough grounding in Violin playing. Miss Moore has finished all the technical studies in one year and seven months, and she is herewith granted a diploma of her work, and is recommended to take a course of higher study, with the Violin under some good expert. Some good Conservatories are recommended here, Chicago, Boston, Harvard and Fisk University.

Miss Moore is one of a thousand that has stuck to her studies and finished them all well. All the time during this precious study, Prof. Walton suggested some helpful supplementary studies and pieces that would advance her in the art of keeping time, and a more practical knowledge of accentuation, which most pupils value but little. But Miss Moore preferred to finish all of her studies before she tried any pieces, because she feared that she would meet with some musical term that she had not reached in study, so when she had finished she would be able to play any musical composition placed before her.

Prof. S. B. Walton has been in Dallas for 18 years, and to his knowledge Miss Moore is the only Colored pupil of mine to finish a thorough course of study in music during these 18 years, with any musical instrument.

Miss Moore has planned to study Harmony and Composition and Orchestration. Miss Moore has suggested to organize an Orchestra of ladies and gentlemen, and pupils of the advance studies of music for the benefit of Dallas music talents, and wants all young men and ladies to study and accomplish something for Dallas in this year 1919.
